

Your Private Wood Fired Hot Tub

Your Hot Tub Pack includes:

- Operating instructions & rules - please ensure everyone reads & understands the hot tub rules
- 1 floating thermometer
- 2 large towels & 1 small foot towel
- 1 non-slip mat
- 2 robes (hung in wardrobe)
- 2 pairs of spa slippers
- 1 adjustable hot tub side table - adjust to sit over edge of the hot tub. Please remove before replacing hot tub lid
- 2 bottles of water (placed in your pod fridge)
- 2 plastic flutes & 2 plastic tumblers in the kitchenette

Operating Instructions

- The stove will be pre-set for you, ready to light. Keep the cover on the hot tub for the first 2 hours, whilst the water is heating up. Light the stove with matches from the grey log box & keep the vents on the stove door open.
- Use the logs provided in the log box to keep a steady fire going until the water reaches 34-38 degrees. Load logs 15 minutes after lighting & every 20-30 minutes thereafter, filling the stove with logs each time.
- It takes approximately 1.5-2 hours to heat up to 38 degrees. To get it to the right temperature for you, please use your hand to check the temperature as well as the thermometer.
- Once at the desired temperature, close the vents on the stove door & stop adding logs.
- Remove the hot tub cover & gently place it onto slabs or gravel, away from the stove or flue. Please avoid placing on the grass or mud as this transfers dirt into the hot tub.
- To avoid a hot spot please use the hot tub with the jets running. When the jets are not running, beware of the hot spot where the heated water enters the hot tub - this is on the side of the higher seat base, next to the stove.
- Do not use the hot tub if it exceeds 40 degrees. If the water is too hot, you can open the drain valve to let some hot water out & close it again. Open the supply valve on supply hose to top up with cold water to just cover the spa jets - please keep hold of the hose when filling to avoid the hose snaking & getting you wet!
- Once finished, please place & secure the cover back on top of the hot tub.

Your Private Wood Fired Hot Tub

Rules

- The hot tub may only be used until 11pm
- The hot tub is exclusive to its pod guests ONLY - any damage caused will be accountable to you.
- Please shower before & after use - fake tan, soaps, gels, oils or other liquids MUST NOT be used in the hot tub. This can destroy the filters & the hot tub itself. Penalties may apply if this has not been adhered to.
- Please only use plastic tumblers & flutes provided for drinks - no glass permitted.
- Swimwear must be worn at all times.
- It is advisable that the average time you spend in the hot tub is between 15 - 30 minutes.
- If you start to feel dizzy or light headed please step out.
- Children must ALWAYS be supervised. Children under the age of 15 can only use the hot tub in intervals of 15 minutes with at least a 15-minute break in between (this is due to children not being able to regulate their own body temperature).
- Children under the age of 5 are NOT permitted to use the hot tub.
- Please refrain from eating & drinking alcohol in the hot tub – enjoy responsibly afterwards.
- Any guests pregnant, elderly, with heart disease, diabetes, high/low blood pressure or any seriousness illness should consult with a doctor before using the hot tub.
- The hot tub may be drained & cleaned by our Housekeeping Team from 9am on day of check-out.
- For your safety, there is CCTV present - to maintain your privacy this is not actively monitored & only reviewed following reports of an incident or accident.

Thank you & enjoy!
